## INDEPENDENT AUDITOR'S REPORT

September 22, 2010

Board of Trustees  
State of Louisiana  
School Employees' Retirement System  
Baton Rouge, Louisiana

We have audited the accompanying statements of plan net assets of the State of Louisiana School Employees' Retirement System (Plan), a component unit of the State of Louisiana, as of June 30, 2010 and 2009, and the related statements of changes in plan net assets for the years then ended. These financial statements are the responsibility of the State of Louisiana School Employees' Retirement System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the State of Louisiana School Employees' Retirement System as of June 30, 2010 and 2009, and the results of its operations and changes in net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required

by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audits were made for the purpose of forming an opinion on the basic financial statements that collectively comprise the Plan's financial statements as a whole. The required supplementary information on pages 31 - 33, as required by the Governmental Accounting Standards Board, and the other supplementary information listed on pages 34 - 44 are presented for the purposes of additional analysis and are not a part of the basic financial statements. Such required statistical information for the years ending June 30, 2005 - 2010 and supplemental schedules for the years ending June 30, 2010 and 2009, have been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

In accordance with *Government Auditing Standards*, we have also issued a report dated September 22, 2010 on our consideration of State of Louisiana's School Employees' Retirement System internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

STATE OF LOUISIANA  
SCHOOL EMPLOYEES' RETIREMENT SYSTEM  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
AS OF JUNE 30, 2010

The following is management's discussion and analysis of the financial performance of Louisiana School Employees' Retirement System (LSERS). It is presented as a narrative overview and analysis for the purpose of assisting the reader with interpreting key elements of the financial statements, notes to the financial statements, required supplementary information, and supporting schedules for the current year.

**FINANCIAL HIGHLIGHTS**

- The System experienced net investment gains of \$149,812,525 at June 30, 2010; this is a 160% increase from net investment losses of \$(248,186,441) at June 30, 2009). This increase was due to a major recovery in all segments of the portfolio. The year started with a strong upward movement off the bottom as the fears of a second major depression were averted by numerous actions implemented by governments here and abroad. In April investors realized that while disaster had been averted, the economy was not going to experience a full recovery for quite some time. The consumer was still not in a position to return to spending until unemployment starts to recover and business would not be hiring until demand returned. Market liquidity has returned but investors remain very cautious, with most new money finding its way into the bond market, not stocks. The S&P 500 was up 14.4% for the year. As a result, the total composite market return of the portfolio was a positive 13.02% for the year ended June 30, 2010 as compared to a negative 16.94% for the year ended June 30, 2009.
- Member contributions decreased by \$(669,116) or (3) %. The decrease is attributable to a slight decline in the active member population and a corresponding decrease in aggregate member salaries.
- Employer contributions decreased by \$(2,418,124) or (4) %. The employer contribution rate established by the system's actuary and approved by the Public Employees' Retirements Systems Actuarial Committee is projected a year in advance and was 0.2% less than the preceding plan year. The decrease is a combination of the reduction in aggregate member salaries and the reduced employer rate for the plan year.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

The discussion and analysis is intended to serve as an introduction to the System's basic financial statements, which are comprised of three components:

- Statement of Plan Net Assets
- Statement of Changes in Plan Net Assets
- Notes to the Financial Statements

The report also contains required supplemental information in addition to the basic financial statements themselves.

STATE OF LOUISIANA  
SCHOOL EMPLOYEES' RETIREMENT SYSTEM  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
AS OF JUNE 30, 2010

The statements of plan net assets report the pension fund's assets, liabilities, and results in the net assets held in trust for pension benefits. It discloses the financial position of the System as of June 30, 2010 and 2009.

The statements of changes in plan net assets report the results of the pension fund operations during the year, disclosing the additions to and deductions from the plan net assets. It supports the change that has occurred to the prior year's net asset value on the statement of plan net assets.

**LSERS FINANCIAL ANALYSIS**

LSERS provides retirement benefits to all eligible school bus drivers, school janitors, school custodians, school maintenance employees, school bus aides, or other regular school employees who actually work on a school bus helping with the transportation of school children. Member contributions, employer contributions and earnings on investments fund these benefits.

ADDITIONS TO PLAN NET ASSETS

Additions to LSERS plan net assets were derived from member and employer contributions and net gains (losses) on investments. Employer contributions decreased \$(2,418,124) or (4)% while member contributions decreased \$(669,116) or (3)%. The System experienced net investment income of \$149,812,525 for the fiscal year ending June 30, 2010 as compared to net investment loss of \$(248,186,441) for fiscal year ending June 30, 2009. This increase in net investments is due to net gains in what was a very volatile year as the economy tried to get back on track for a sustained recovery.

DEDUCTIONS FROM PLAN NET ASSETS

Deductions from plan net assets include mainly retirement, death and survivor benefits, refunds of contributions and administrative expenses. Deductions from plan net assets totaled \$143,294,337 in fiscal year 2010. The deductions increased 3% due to an increase in the aggregate number of retirees and the corresponding increase in pension benefits payable. No cost-of-living benefits were granted during the year.

STATE OF LOUISIANA  
SCHOOL EMPLOYEES' RETIREMENT SYSTEM  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2010 AND 2009

The State of Louisiana School Employees' Retirement System was established and provided for by R.S. 11:1001 of the Louisiana Revised Statutes (LRS). The Plan is administered by a board of trustees made up of eleven members composed of the President of the Louisiana School Bus Operators' Association, the chairman of the House Retirement Committee, the chairman of the Senate Retirement Committee, the Secretary of State, the State Treasurer, two service retirees elected by the retirees of the Plan, and a resident of each of the four districts of the Retirement System elected by the members of the Retirement System for a term of four years each.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The financial statements of State of Louisiana School Employees' Retirement System(Plan) are prepared in accordance with the standards established by the Governmental Accounting Standards Board (GASB) as the successor of the National Council on Governmental Accounting (NCGA).

In addition, these financial statements include the provisions of GASB Number 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments* and related standards. This standard provides for inclusion of a management discussion and analysis as supplementary information and other changes.

Financial Reporting Entity:

In June 1991, the Governmental Accounting Standards Board (GASB) issued Statement No. 14, *The Financial Reporting Entity*. The definition of the reporting entity is based primarily on the notion of financial accountability.

In determining financial accountability for legally separate organizations, the Plan considered whether its officials appoint a voting majority of an organization's governing body and whether they are able to impose their will on that organization or there is a potential for the organization to provide specific financial burdens to, or to impose specific financial burdens on, the Plan. The Plan also considered whether there are organizations that are fiscally dependent on it. There are no component units of the Plan.

The Plan is a component unit of the State of Louisiana and its financial statements are included in the financial statements of the State of Louisiana.

Basis of Accounting:

The financial statements are prepared using the accrual basis of accounting.

Employer and employee contributions are recognized in the period that the employee is compensated for services performed.

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2010 AND 2009

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Basis of Accounting: (Continued)

Benefits and refunds paid are recognized when due and payable in accordance with the terms of the Plan.

Interest income is recognized when earned and dividends are recognized at the declaration date.

Expenditures are recognized in the period incurred.

Investments are reported at fair value. Changes in market value are reported as gains or losses in the year the change occurred. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Shares in external investment pools and mutual funds are equivalent to the fair value of the external investment pool and mutual funds.

The Plan reports securities lent through the securities lending program as assets. Cash received as collateral on securities lending transactions and investments made with that cash are reported as assets. Liabilities resulting from securities lending transactions are reported as well.

The Plan invests in futures contracts and options in futures contracts. The changes in the market value of the contracts are reported as gains and losses in the period in which the change occurs.

The real estate held for investment consists of the leasing of office space. The investment is valued at fair market value which is based upon appraised value.

The Plan invests in limited private equity partnerships. These investments are valued at market value, which is estimated by the General Partner of each partnership.

Property and Equipment:

Land, building, equipment and furniture are carried at historical cost. Depreciation is computed by the straight-line method based upon useful lives of 40 years for the building and 3 to 10 years for equipment and furniture.

Compensated Absences:

The employees of the Plan accumulate annual sick leave at varying rates based upon years of state service. Upon resignation or retirement, unused annual leave of up to 300 hours is paid to employees at the employees' rate of pay. Upon retirement, unused annual leave in excess of 300 hours and sick leave may be converted to service credit subject to restrictions of the retirement system to which the employee belongs.

2. PLAN DESCRIPTION:

The State of Louisiana School Employees' Retirement System ("the Plan") is the administrator of a cost-sharing multiple-employer defined benefit pension plan and is a component unit of the State of Louisiana included in the State's CAFR as a Pension Trust Fund. The Plan was established and provided for by R.S.11:1001 of the Louisiana Revised Statutes (LRS). The accompanying statements present information only as to transactions of the program of the Plan as authorized by Louisiana Revised Statutes. For the years ended June 30, 2010 and 2009, the local government contributors consisted of 64 school boards and 41 and 42 other agencies, respectively, contributing to the Plan.

The Plan provides retirement benefits to non-teacher school employees excluding those classified as lunch workers within the public school system of Louisiana. At June 30, 2010 and 2009, plan membership consisted of:

Eligibility Requirements:

Benefit provisions are authorized under Louisiana Revised Statutes 11:1141 - 11:1153.

Membership is mandatory for all persons employed by a Louisiana Parish or City School Board or by the Lafourche Special Education District #1 who work more than twenty hours per week as a school bus driver, school janitor, school custodian, school maintenance employee, or school bus aide, a monitor or attendant, or any other regular school employee who actually works on a school bus helping with the transportation of school children. If a person is employed by and is eligible to be a member of more than one public agency within the state, he must be a member of each such retirement system. Members are vested after 10 years of service.

All temporary, seasonal and part-time employees as defined in Federal Regulations 26 CFR 31:3121(b)(7)-2 are not eligible for membership in the Plan. Any part-time employees who work 20 hours or less per week and do not have at least 10 years of credited service will be refunded their contributions.

2. PLAN DESCRIPTION: (Continued)

Benefits:

A member is eligible for normal retirement if he has at least 30 years of creditable service regardless of age, 25 years of creditable service and is at least age 55, or 10 years of creditable service and is at least age 60.

The maximum retirement benefit is an amount equal to 3 1/3% of the average compensation for the three highest consecutive years of membership service for members who joined the system prior to July 1, 2006, multiplied by the number of years of service limited to 100% of final average compensation, plus a supplementary allowance of \$2.00 per month for each year of service. For members who join the system on or after July 1, 2006, the average compensation used to calculate benefits consists of the five highest consecutive years' average salary. The supplemental allowance was eliminated for members entering the Plan on or after July 1, 1986. Effective January 1, 1992, the supplemental allowance was reinstated to all members whose service retirement became effective after July 1, 1971.

A member is eligible to retire and receive disability benefits if he has at least five years of creditable service, is not eligible for normal retirement and has become totally and permanently disabled and is certified as disabled by the Medical Board. A member who joins the system on or after July 1, 2006, must have at least ten years of service to qualify for disability benefits.

Upon the death of a member with five or more years of creditable service, the Plan provides benefits for surviving spouses and minor children. Under certain conditions outlined in the statutes, the benefits range from \$300 up to 75% of the member's average compensation for the three highest consecutive years of membership service.

Members of the Plan may elect to participate in the Deferred Retirement Option Plan, (DROP) and defer the receipt of benefits. The election may be made only one time and the duration is limited to three years. Once an option has been selected, no change is permitted. Upon the effective date of the commencement of participation in the DROP Plan, active membership in the regular retirement plan of the system terminates. Average compensation and creditable service remain as they existed on the effective date of commencement of participation in the Plan. The monthly retirement benefits, that would have been payable had the person elected to cease employment and receive a service retirement allowance, are paid into the Deferred Retirement Option Plan Fund Account. The Plan maintains subaccounts within this account reflecting the credits attributed to each participant in the Plan. Interest credited and payments from the DROP account are made in accordance with Louisiana Revised Statutes 11:152(F)(3).

Upon termination of participation in both the Plan and employment, a participant may receive his DROP monies either in a lump sum payment from the account or systematic disbursements.

SCHOOL EMPLOYEES' RETIREMENT SYSTEM  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2010 AND 2009

2. PLAN DESCRIPTION: (Continued)

Benefits: (Continued)

The Plan also provides for deferred benefits for vested members who terminate before being eligible for retirement. Once the member reaches the appropriate age for retirement, benefits become payable.

Effective January 1, 1996, the state legislature authorized the Plan to establish an Initial Benefit Retirement Plan (IBRP) program. IBRP is available to members who have not participated in DROP and who select the maximum benefit, Option 2 benefit, Option 3 benefit or Option 4 benefit. Thereafter, these members are ineligible to participate in the DROP. The IBRP program provides both a one-time single sum payment of up to 36 months of a regular monthly retirement benefit, plus a reduced monthly retirement benefit for life. Interest credited and payments from IBRP account are made in accordance with Louisiana Revised Statutes 11:1152(F)(3).

3. CONTRIBUTIONS, RESERVES, FUNDED STATUS AND FUNDING PROGRESS:

Contributions for plan members are established by state statute at 7.5% of their annual covered salary for the years ended June 30, 2010 and 2009. Contributions for all participating school boards are actuarially determined as required by Act 81 of 1988 but cannot be less than the rate required by the Constitution. The employer rate for the years ended June 30, 2010 and 2009 was 17.6% and 17.8%, respectively.

Administrative costs are included in aggregate normal cost.

Reserves:

Use of the term "reserve" by the Plan indicates that a portion of the fund balances is legally restricted for a specific future use. The nature and purpose of these reserves are explained below:

A) Administrative:

The Administrative Fund Reserve provides for general and administrative expenses of the Plan and those expenses not funded through other specific legislative appropriations. Funding consists of transfers from the investment earnings and is made as needed. The Administrative Fund Reserve for each year ending June 30, 2010 and 2009 is \$0. Any excess funds at year end are closed out to the Pension Accumulation Fund per Louisiana Statute.

3. CONTRIBUTIONS, RESERVES, FUNDED STATUS AND FUNDING PROGRESS:

(Continued)

Reserves: (Continued)

B) Annuity Savings:

The Annuity Savings is credited with contributions made by members of the Plan. When a member terminates his service or upon his death before qualifying for a benefit, the refund of his contributions is made from this reserve. If a member dies and there is a survivor who is eligible for a benefit, the amount of the member's accumulated contributions is transferred from the Annuity Savings to the Survivor Benefit Reserve. When a member retires, the amount of his accumulated contributions is transferred to Pension Reserve to provide part of the benefits. The Annuity Savings as of June 30, 2010 and 2009 is \$161,369,462 and \$154,771,928, respectively. The Annuity Savings is fully funded.

C) Pension Accumulation Fund:

The Pension Accumulation Fund consists of contributions paid by employers, interest earned on investments and any other income not covered by other accounts. This reserve account is charged annually with an amount, determined by the actuary, to be transferred to the Pension Reserve to fund retirement benefits for existing recipients. It is also relieved when expenditures are not covered by other reserves. The Pension Accumulation Fund as of June 30, 2010 and 2009 is \$678,092,570 and \$688,029,472, respectively. The Pension Accumulation Fund is unfunded at June 30, 2010 and 2009.

D) Pension Reserve and Survivors Benefit Reserve:

The Pension Reserve consists of the reserves for all pensions, excluding cost-of-living increases, granted to retired members and is the reserve account from which such pensions and annuities are paid. Survivors of active members receive benefits from the Survivors Benefit Reserve account. The Pension Reserve as of June 30, 2010 and 2009 is \$1,182,538,920 and \$1,127,330,625, respectively. The Survivors Benefit Reserve as of June 30, 2010 and 2009 is \$125,368,520 and \$117,161,229, respectively. The Pension Reserve is 81% funded as of June 30, 2010 and 79% funded as of June 30, 2009. The Survivors Benefit is 81% funded as of June 30, 2010 and 79% funded as of June 30, 2009.

E) Deferred Retirement Option Account:

The Deferred Retirement Option account consists of the reserves for all members who upon retirement eligibility elect to deposit into this account an amount equal to the member's monthly benefit if he had retired. A member can only participate in the program for three years, and upon termination may receive his benefits in a lump sum payment or by a true annuity. The Deferred Retirement Option account as of June 30, 2010 and 2009 is \$65,325,802 and \$65,390,584, respectively. The Deferred Retirement Option account is fully funded.

F) Initial Benefit Retirement Plan Reserve:

The Initial Benefit Retirement Plan Reserve consists of the reserves for all participants who elect to take a lump sum benefit payment up front and subsequently receive a reduced monthly benefit. The maximum amount a member may receive up front is 36 months times the maximum benefit. The Initial Benefit Retirement Plan Reserve as of June 30, 2010 and 2009 is \$669,924 and \$675,673, respectively. The Initial Benefit Retirement Plan Reserve is fully funded.

| Asset valuation method        | The Actuarial Value of Assets is the market value of assets adjusted for a four year weighted average in the unrealized gain or loss in the value of all assets.   |
| Actuarial assumptions:        |  |
| Investment rate of return     | 7.5%   |
| Projected salary increases    | The rate of annual salary growth is based on the members' years of service.  |
| Cost of living adjustments    | The liability for cost of living raises already granted is included in the retiree reserve. Future cost of living increases are only granted if specific target ratios are met and excess interest earnings are available to fund the cost of benefit increases. |
| Changes in unfunded liability | The Plan experienced an increase in the unfunded liability in the amount \$171,980,732 as a result of investment losses. The Plan experienced a decrease in the unfunded liability in the amount of \$82,494,966 as a result of an experience gain.              |

4. ACTUARIAL COST METHOD:

The individual "Entry Age Normal" cost method was used to calculate the funding requirements of the Plan. Under this cost method, the actuarial present value of projected benefits of each individual included in the valuation is allocated on a level basis as a percentage of payroll for each participant between entry age and assumed retirement age(s). That portion of the actuarial present value attributable to current year benefit accruals is called the Normal Cost. The actuarial present value of future benefits in excess of the actuarial present value of future normal cost is called the actuarial accrued liability.

5. DEPOSITS, CASH EQUIVALENTS AND INVESTMENTS: (Continued)

Credit Risk: (Continued)

The Plan's investment policy limits its investments to no more than 10% of corporate debt issues rated below investment grade by Moody's Investor Services, Standard & Poor's, Fitch Investor Services, or Duff & Phelps. Securities that are downgraded below the policy standard must be sold within a reasonable amount of time. In addition, the Plan may invest in debt instruments of the U.S. Government or its agencies.

Cash collateral invested under the securities lending program may be invested in regulated investment companies, U.S. or Eurodollar deposits, commercial paper rated A2, P2 or higher at the time of investment, repurchase agreements, bankers' acceptances or similar quality money market or cash equivalent investments. The Plan is in compliance with the investment policy regarding cash collateral invested under the securities lending program.

Custodial Credit Risk:

Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investments held in a trust in the name of the Plan or in external investment pools are not exposed to foreign currency risk. External investment pools are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

At June 30, 2010 and 2009, for collateral held under securities lending in the amounts of \$145,764,096 and \$27,063,977, respectively, and noncash collateral received under the securities lending program in the amounts of \$15,021 and \$1,308,855, respectively, the Plan is exposed to custodial credit risk since these investments are not in the name of the Plan. The Plan has no formal investment policy regarding custodial credit risk.

Foreign Currency Risk:

Foreign currency risk is defined as the risk that changes in exchange rates will adversely affect the fair value of an investment. Foreign currency risk by currency for the years ended June 30, 2010 and 2009 are as follows:

6. SECURITY LENDING TRANSACTIONS:

State statutes and Board of Trustees' policies permit the Plan to lend its securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. The Plan entered into a contract with a company which acts as its third-party securities lending agent. The lending agent has access to the Plan's lendable portfolio or available assets. The agent lends available assets such as U.S. and non U.S. equities, corporate bonds, and U.S. Government and Government Agency Securities. Securities are loaned versus collateral that may include cash, U.S. Government securities, and irrevocable letters of credit. U.S. securities are loaned versus collateral valued at 102% of the market value of the securities plus any accrued interest. Non U.S. securities are loaned versus collateral valued at 105% of the market value of the securities plus any accrued interest. At year-end, the Plan has no credit risk exposure to borrowers because the amounts the Plan owes the borrowers exceed the amounts the borrowers owe the Plan. The contract with the Plan's agent requires it to provide borrower indemnification. The custodian's responsibility includes performing appropriate borrower and collateral investment credit analyses, demanding adequate types and levels of collateral and complying with applicable Department of Labor and Federal Financial Institutions Examination Council regulations concerning securities lending.

All security loans can be terminated on demand by either the Plan or the borrower, although the average term of a loan is 82 days. Cash collateral is invested in the lending agent's short-term investment pool, which at year-end has a weighted-average maturity of 24 days. Cash collateral may also be invested separately in "term loans", in which the investments match the loan term. These loans can be terminated on demand by either lender or borrower. The relationship between the maturities of the investment pool and the Plan's loans is affected by the maturities of the security loans made by other entities that use the agent's pool, which the Plan cannot determine. The Plan cannot pledge or sell collateral securities received unless the borrower defaults. There were no significant violations of legal or contractual provisions and no borrower or lending agent default losses are known to the securities lending agent.

The Plan has the following securities on loan:

6. SECURITY LENDING TRANSACTIONS: (Continued)

Securities on loan at June 30, 2010 and 2009 are collateralized by cash collateral in the amount of \$145,764,096 and \$27,063,977, respectively, and noncash collateral in the amount of \$15,021 and \$1,308,855, respectively.

The term to maturity of the securities loaned is matched with the term to maturity of the investment of the cash collateral at June 30, 2010 and 2009. Such matching did exist since loans may be terminated on demand.

7. FUTURES:

During the period ended June 30, 2010, the Plan implemented Governmental Accounting Standards Board (GASB) Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. GASB 53 requires investment derivatives to be recorded at fair value and requires certain disclosures.

The Plan has entered into futures contracts for the purpose of maintaining market exposure for excess cash. At June 30, 2010, the Plan has the following derivative instruments categorized as investment derivative instruments:

Credit Risk:

The Plan's future contracts are settled daily by the exchange via margin accounts; therefore, the exchange is the counterparty for all transactions. This ensures that no participant takes on excessive credit. The counterparties execute the trades on the Plan's behalf which results in the Plan not being exposed directly to credit risk.

7. FUTURES: (Continued)

Foreign Currency Risk:

The Plan is exposed to foreign currency risk on its fixed income futures contracts which are denominated in British pounds and Canadian dollars. At June 30, 2010, the fair value of the fixed income futures contracts is \$-0-.

Interest Rate Risk:

The Plan is exposed to interest rate risk on fixed income futures. The values of the futures are directly linked to interest rate indices which increase and decrease as interest rates change.

During the years ended June 30, 2010 and 2009, the Plan was required to pledge \$500,000 and \$500,000, respectively, of treasury bills as collateral for the S&P 500 trading account. At June 30, 2010 and 2009, the pledged treasury bills' fair market value was \$499,640 and \$499,456, respectively.

8. ALTERNATIVE INVESTMENTS:

The Plan invests in limited private equity partnerships. These investments are valued at market value, which is estimated by the General Partner of each partnership. The value assigned to these investments is based upon available information and does not necessarily represent the amounts that might ultimately be realized, since such investments depend on future circumstances and cannot be determined until the individual investments are actually liquidated. At the reporting deadline, March 31, 2010 was the most recent market valuation available. Fair value was approximated by adding or subtracting activity between April 1, 2010 and June 30, 2010. Fair value of all partnerships was \$91,102,795 and \$83,829,539 as of June 30, 2010 and 2009, respectively.

The total initial active commitment for the partnerships as of June 30, 2010 was \$87,249,000. The total amount called for funding as of June 30, 2010 was \$36,172,290. The total amount of distributions callable for funding as of June 30, 2010 was \$1,200,000. The remaining commitment that could be called as of June 30, 2010 was \$52,276,710.

9. PER DIEM PAID TO BOARD MEMBERS:

Per diem paid to board members, as presented on Page 36, was established at \$75.00 per day in accordance with Louisiana Revised Statute 42:700.2.

Depreciation expense for the years ended June 30, 2010 and 2009 was \$106,428 and \$129,501, respectively.

11. REQUIRED SUPPLEMENTAL SCHEDULE INFORMATION:

Information in the required supplemental schedules is designed to provide information about the System's progress made in accumulating sufficient assets to pay benefits and is presented on pages 31 through 33.

12. TAX QUALIFICATION:

The Plan is a Tax Qualified Plan Under IRS Code Section 401(a).

13. ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

14. OPERATING LEASES:

The Plan leases office space recorded as real estate held for investment under an operating lease expiring October 31, 2015. The cost and fair value of the real estate held for investments is \$2,151,604 and \$1,993,124, respectively, as of June 30, 2010 and 2009.

15. POST RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS:

Substantially all Plan employees become eligible for post-employment health care and life insurance benefits if they reach normal retirement age while working for the Plan. These benefits for retirees and similar benefits for active employees are provided through an insurance company whose premiums are paid jointly by the employee and the Plan. At June 30, 2010, eleven retirees were receiving post-employment benefits.

Plan Description

The Plan's employees may participate in the State of Louisiana's Other Postemployment Benefit Plan (OPEB Plan), an agent multiple-employer defined benefit OPEB Plan (for fiscal year 2008) that provides medical and life insurance to eligible active employees, retirees and their beneficiaries. The State administers the plan through the Office of Group Benefits. LRS 42:801-883 assigns the authority to establish and amend benefit provisions of the plan. The Office of Group Benefits does not issue a publicly available financial report of the OPEB Plan; however, it is included in the State of Louisiana Comprehensive Annual Financial Report (CAFR). You may obtain a copy of the CAFR on the Office of Statewide Reporting and Accounting Policy's website at [www.doa.la.gov/osrap](http://www.doa.la.gov/osrap).

Funding Policy

The contribution requirements of plan members and the Plan are established and may be amended by LRS 42:801-883. Employees do not contribute to their postemployment benefits cost until they become retirees and begin receiving those benefits. The retirees contribute to the

cost of retiree healthcare based on a service schedule. Contribution amounts vary depending on what healthcare provider is selected from the plan and if the member has Medicare coverage. The Office of Group Benefits offers three standard plans for both active and retired employees: the Preferred Provider Organization (PPO) Plan, the Exclusive Provider Organization (EPO) plan and the Health Maintenance Organization (HMO) plan. Retired employees who have Medicare Part A and Part B coverage also have access to five OGB Medicare Advantage plans which includes three HMO plans and two private fee-for-service (PFFS) plans. Depending upon the plan selected, during the year ended June 30, 2010 and 2009, employee premiums for a single member receiving benefits range from \$81 to \$98 and \$79 to \$95 per month, respectively, for employee-only coverage with Medicare or from \$134 to \$181 and \$130 to \$176 per month, respectively, for employee-only coverage without Medicare. The premiums for an employee and spouse for the year ended June 30, 2010 and 2009 range from \$146 to \$362 and \$142 to \$352 per month, respectively, for those with Medicare or from \$435 to \$527 and \$423 to \$512 per month, respectively, for those without Medicare.

The Plan is currently financed on a pay as you go basis, with the Agency contributing anywhere from \$243 to \$253 and \$236 to \$246 per month for retiree-only coverage with Medicare or from \$864 to \$900 and \$838 to \$873 per month for retiree-only coverage without Medicare during the years ended June 30, 2010 and 2009, respectively. Also, the Plan's contributions range from \$437 to \$937 and \$425 to \$909 per month for retiree and spouse with Medicare or \$1,326 to \$1,382 and \$1,288 to \$1,341 for retiree and spouse without Medicare during the years ended June 30, 2010 and 2009, respectively.

OGB also provides eligible retirees Basic Term Life, Basic Plus Supplemental Term Life, Dependent Term Life and Employee Accidental Death and Dismemberment coverage, which is underwritten by The Prudential Insurance Company of America. The total premium is approximately \$1 per thousand dollars of coverage of which the employer pays one half of the premium. Maximum coverage is capped at \$50,000 with a reduction formula of 25% at age 65 and 50% at age 70, with AD&D coverage ceasing at age 70 for retirees.

Annual OPEB Cost

The Plan's Annual Required Contribution (ARC) is an amount actuarially determined in accordance with GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities. The total ARC for the fiscal year beginning July 1, 2010 and 2009 is \$621,000 and \$769,800, respectively.

Funded Status and Funding Progress

Act 910 of the 2008 Regular Session established the Post Employment Benefits Trust Fund effective July 1, 2008. However, during fiscal year 2010, neither the Plan nor the State of Louisiana contributed to it. Since the plan has not been funded, the entire actuarial accrued liability of \$7,909,700 and \$6,338,800 as of July 1, 2009 and July 1, 2008, respectively, was unfunded.

| Unfunded actuarial accrued liability (UAAL)                             | <u>\$ 7,909,700</u> | <u>\$ 6,338,800</u> |
| Funded ratio (actuarial value of plan assets/AAL)                       | 0%                  | 0%                  |
| Covered payroll (annual payroll of active employee covered by the plan) | \$1,726,700         | \$ 1,874,300        |
| UAAL as a percentage of covered payroll                                 | 458%                | 338%                |

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities consistent with the long-term perspective of the calculations.

In the July 1, 2009 and 2008, actuarial valuations, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.0 percent investment rate of return (net of administrative expenses) and initial annual healthcare cost trend rate of 8.5% and 9.6% for pre-Medicare and Medicare eligible, respectively, for the July 1, 2009 valuation and initial annual healthcare cost trend rate of 9.0% and 10.1% for pre-Medicare and Medicare eligible, respectively, for the July 1, 2008 valuation scaling down to ultimate rates of 5% per year. The unfunded actuarial accrued liability is being amortized as a level percentage of payroll over an open amortization period of 30 years in developing the annual required contribution. The remaining amortization period as of June 30, 2010 and 2009 was 27 and 28 years, respectively.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON  
A FINANCIAL STATEMENT AUDIT PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

September 22, 2010

Board of Trustees  
State of Louisiana School  
Employees' Retirement System  
Baton Rouge, Louisiana

We have audited the financial statements of the State of Louisiana School Employees' Retirement System (Plan), a component unit of the State of Louisiana, as of and for the year ended June 30, 2010, and have issued our report thereon dated September 22, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit, we considered the State of Louisiana School Employees' Retirement System's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of Louisiana School Employees' Retirement System's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the State of Louisiana School Employees' Retirement System's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as described above.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State of Louisiana School Employees' Retirement System's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Trustees, State of Louisiana Division of Administration, Office of the Legislative Auditor of the State of Louisiana, and management and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statutes 24:513, this report is distributed by the Legislative Auditor as a public document.
